EDUCATION

Associate's Degree of Information Technology

Institut Teknologi Del

2022 - Present

SKILLS

Programming Language

- C
- C++
- PHP
- Java
- Kotlin
- Golang

Framework

- ReactJS
- NodeJS
- Laravel
- Flutter
- .NET

Database

- MySQL
- MongoDB
- MS Access

Tools

- Git
- Postman
- Visual Studio Code
- Robot
- Cucumber
- Selenium

ABOUT ME

I am a student of D3 Information Technology at Del Institute of Technology. With hands-on experience in programming languages such as Java, PHP, Go, C, C++ and others, I have developed several projects that demonstrate my skills as a Software Engineer. I am eager to apply my knowledge and contribute to real-world projects as a Software Engineering Intern. My strong problem-solving abilities and my enthusiasm for continuous learning, make me a dedicated and adaptable candidate who is ready to take on new challenges in a dynamic work environment.

PROJECTS

● Mar 2024 - May 2024

Arsitektur Microservice Website Hotel Purnama Balige

In this project we built an application with the Go programming language that implements a microservice architecture by dividing the service into 11 parts that have their own databases. Here I act as a software tester who conducts tests to check whether each service can work properly without any bugs.

● Mar 2024 - May 2024

Scool E-Learning Platform

Worked with a team to create a Distributed Database Management for an e-learning platform using .net technology using c# programming language where I acted as a quality assurance to check the functions in the system so that it runs properly.

● Mar 2024 - Apr 2024

Toko Elektronik

Worked with a team on an internal boot camp project to build a website as a project manager managing each team's role and also as a UI/UX (using figma), Front-End and Back-End Developer (using PHP/laravel and ReactJS) for web development.

● Jan 2024 - Jun 2024

Purnama Balige Hotel Information System and Room Reservation

Collaborated with a team in four roles: UI/UX Designer utilizing Figma for prototyping and Balsamiq for mockups, Front-End Developer using HTML, CSS, JavaScript, and PHP for website development, Software Tester employing Robot Framework, and Project Manager overseeing and coordinating all team roles.

● Nov 2023 - Dec 2023

Hotel Booking Application

Worked as UI/UX and QA Engineer for quality testing of applications built using Kotlin and Java programming language with Object-Oriented Programming (OOP) principles for mobile application development.

Soft Skills

- Problem Solving
- Critical Thinking
- Project Management
- Communication
- Team Work
- Analytical
- Time Management

ACHIEVEMENT

Finalist HIMATIF Coding Day Challenge

Institut Teknologi Del
March 2023

LANGUAGE

- Indonesian
- English

● Oct 2023 - Dec 2023

IT Del BAAK Administration Application

Worked as UI/UX and Front-End Developer by using Figma for prototyping and Flutter (Dart) programming language for mobile application development.

● Jan 2023 - Jun 2023

Lumban Binanga Village Information System

Worked with team as UI/UX by using Figma to building prototyping and Balsamiq for the mockup of the website.

● Oct 2022 - Dec 2022

Website Kantin Baru IT Del

Worked as UI/UX and Front-End by using Figma tools to create prototyping and HTML, CSS, and JS for web development.
